

Cybersecurity & Infrastructure Security Agency / Region 6

Monthly Training Series – Part III

The U.S. Department of Homeland Security Cybersecurity & Infrastructure Security Agency (CISA), Region 6 is hosting monthly webinars to support critical infrastructure partners in strengthening their cyber and physical security posture. Each webinar allows participants an opportunity to ask the subject matter expert questions and/or provide comments on the topic. Participants will also learn and participate in discussions on specific risks related to cybersecurity, physical security, and mitigating today's challenges. These events are provided by DHS at no-cost to attendees and registration is required to receive the webinar links. (Registration link below.) Webinar delivery will be through the MS Teams platform.

APRIL 13, 2022 11:00 AM – 12:00 PM Central

Chemical Security

Speaker: Steve Shedd, CCS

Participants will learn about CISA tools, resources, and programs that promote chemical security.

MAY 11, 2022 11:00 AM – 12:00 PM Central

Introduction to Bomb Threat Management Speaker: Jeff McKee, PSA

Attendees will be introduced to the foundational knowledge of bomb threat management and acquire information to support a bomb threat plan.

JUNE 15, 2022 11:00 AM – 12:00 PM Central

Cybersecurity Vulnerability Management Speaker: George Reeves, CSA

An introduction to Vulnerability Management to improve your approach to proactively prevent the exploitation of IT vulnerabilities that could potentially harm a system or organization.
